

MA100UV00

OMNIDIRECTIONAL MICROCELL ANTENNAS

MA100UV00 is an omnidirectional low-profile and fully shrouded antenna mainly used on vehicles roofs. Other applications include ceiling installation for indoor coverage. It is a tuned antenna that covers the full frequency range. Due to its metallic base plate, the mounting surface does not need to be metallic. It is fitted with a 5 meters coaxial cable, no connector at the end.
