

MA531P01

Supplied with RG58 cable

DISCRETE ANTENNA

These antenna are ideal for vehicles where communications must be kept discrete.

Type	Quarter wave whip
Frequency	380 ... 400 MHz
VSWR	< 1.5:1
Gain	0
Impedance	50 ohms
Maximum power	25 watts
Termination	5 meters RG58 coaxial cable
Color	Black
Whip	conical fibre glass shroud
Weight	95 g
Whip maximum length	760 mm
Hole diameter	5 and 10.5 mm
Thread on base for whip fixing	M6 female
Tuning	At factory (frequency to be specified with order)
