5G Ready 65° 1993 mm

# 5763400

5763400G 5763400Dx Penta Band, 10-Port, 65°, XPOL, Panel Antenna, Variable Tilt, 1993 mm

- Penta band antenna, dual polarisation, 10 connectors
- Independent tilt on each band 2-12° / 2-12° / 2-12° / 2-12° / 2-12°
- MET and RET versions, 3GPP/AISG2.0, in multiple single RET (multiple device type1) or in Multi-RET (device type 17, with firmware above MD3.10).
- Our patented, RET module controlling all tilt angles, fully inserted inside the antenna (field replaceable).
- 5G optimal integration with optional mMIMO & 8T8R Hybrid Kits (compatibility list available on request).

## ELECTRICAL DOWNTILT CONTROL

| For multiband antennas, electrical downtilt for each band can be controlled separately. |  |  |  |  |
|---|--|--|--|--|
| Manual Electrical Tilt (MET)<br>Control   | A colored knob at the end of the tilt indicator allows change of the tilt without need of a tool. The knob color is identical to the corresponding connector color. The manual tilt 'override' function is always available with no need to remove the physical RET motor.   |  |  |  |
| Remote Electrical Tilt (RET)<br>Control   | The remote control of the electrical tilt is managed by a Multi-Device Control Unit (MDCU) or a Multi-Device Dual Unit (MDDU) inserted in the bottom of the antenna. See details below and refer to the ordering options to see which actuators are available with this particular antenna. A single actuator individually controls the tilt of each band (no need for daisy chain cables between the bands). This module does not add any additional length to the antenna. |  |  |  |

### **RET ACTUATOR**

Amphenol's RET-READY antennas are delivered with the RET Actuator already installed and pre-commissioned with all antenna parameters. Every RET device is factory configured and calibrated so the antenna is ready to be used once delivered to the site which means that there is no need for further installation of RET devices or for programming their configuration or for running a calibration process.

RET-READY ACTUATORS Multi-Device Control Unit (MDCU). The MDCU is an electronic module that allows the remote control of the electrical downtilt (RET) in Amphenol antennas with factory embedded motors. The MDCU is factory installed. Refer to the ORDERING OPTIONS for availability with this model.

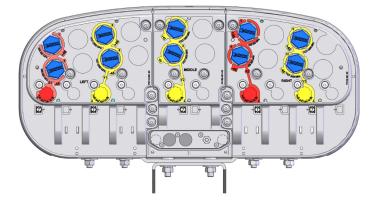

Multi-Device Dual Unit (MDDU). The MDDU allows two separate RET Controllers to independently drive the RETs in antennas with factory embedded motors (for antenna sharing or two technologies). The MDDU is factory installed. Refer to the ORDERING OPTIONS for availability with this model.

| Actuators                 | One per antenna  |  |  |  |
|---------------------------|--|--|--|--|
|                           | One per antenna  |  |  |  |
|                           | +10 to +30 V   |  |  |  |
| Idle State (AISG P1)      | 0.5 W  |  |  |  |
| High Power Mode (AISG P2) | 3 W  |  |  |  |
|                           | 3GPP/AISG 2.0  |  |  |  |
|                           | Less than 15 seconds, typical (may vary dependent on antenna type and outdoor temperature) |  |  |  |
|                           | ±0.5°  |  |  |  |
|                           | 50,000 minimum   |  |  |  |
| MDCU                      | One pair of AISG Male and Female (type IEC60130-9)   |  |  |  |
| MDDU                      | Two male AISG 8 pin connectors (type IEC60130-9 Ed 3.0)                                    |  |  |  |
|                           | Yes  |  |  |  |
|                           | High Power Mode (AISG P2)  |  |  |  |

5G Ready 65° 1993 mm

## 5763400

5763400G 5763400Dx Penta Band, 10-Port, 65°, XPOL, Panel Antenna, Variable Tilt, 1993 mm

### ENVIRONMENTAL SPECIFICATIONS

| Environmental Standard           | ETS 300 019 |                             |
|----------------------------------|-------------|-----------------------------|
| Operating Temperature            | ° C (° F)   | -40° to +60° (-40° to 140°) |
| Product Environmental Compliance |             | Product is RoHs Compliant   |

### ACCESSORIES All accessories are ordered separately unless otherwise indicated

| ITEM   | MODEL NUMBER | WEIGHT           |
|--|--------------|------------------|
| Brackets for pole Ø48 to Ø115 mm (Ø1.9 to Ø4.5 in) delivered as standard | O8464        | 3.4 kg (7.5 lbs) |
| Brackets for pole Ø70 to Ø150 mm (Ø2.8-Ø5.9 in) optional                 | O8465        | 3.9 kg (8.6 lbs) |
| Kit to add mechanical tilt (0° to 10°) to above brackets optional        | 0900396/00   | 2.3 kg (5.1 lbs) |

#### INSTALLATION Please read all installation notes before installing this product.

Always attach the antenna by all mounting points.

Do not install the antenna with the connectors facing upwards.

#### MAIN DIMENSIONS

| Length                           | Н | mm (in) | 1993 (78.4) |
|----------------------------------|---|---------|-------------|
| Width                            | W | mm (in) | 472 (18.6)  |
| Depth                            | D | mm (in) | 205 (8.0)   |
| Distance between mounting points | E | mm (in) | 1766 (69.5) |
