

1997 mm

# 6888670N

6888670NG 6888670NDx

6-Band, 12-Port, 65°, XPOL, Panel Antenna, Variable Tilt, UltraLine, 1997 mm

- Hex band antenna, dual polarisation, 12 connectors
- Independent tilt on each band 2-12° / 2-12° / 2-12° / 2-12° / 2-12°
- UltraLine platform with multi-array capability
- MET and RET versions, 3GPP/AISG2.0, in multiple single RET (multiple device type1) or in Multi-RET (device type 17, with firmware above MD3.10).
- Our patented, RET module controlling all tilt angles, fully inserted inside the antenna (field replaceable)

6-Band, 12-Port, 65°, XPOL, Panel Antenna, Variable Tilt, UltraLine, 1997 mm

### **ELECTRICAL DOWNTILT CONTROL**

| For multiband antennas, electri         | For multiband antennas, electrical downtilt for each band can be controlled separately.   |  |  |  |  |  |  |
|---|---|--|--|--|--|--|--|
| Manual Electrical Tilt (MET)<br>Control | A colored knob at the end of the tilt indicator allows change of the tilt without need of a tool. The knob color is identical to the corresponding connector color.   |  |  |  |  |  |  |
| Remote Electrical Tilt (RET)<br>Control | The remote control of the electrical tilt is managed by a Multi-Device Control Unit (MDCU) or a Multi-Device Dual Unit (MDDU) inserted in the bottom of the antenna. See details below and refer to the ordering options to see which actuators are available with this particular antenna. A single actuator individually controls the tilt of each band (no need for daisy chain cables between the bands). This module does not add any additional length to the antenna. The tilt angle indicators always remain visible and the antenna still has manual tilt control (manual override). |  |  |  |  |  |  |

#### **RET ACTUATOR**

Amphenol's **RET-READY** antennas are delivered with the RET Actuator already installed and pre-commissioned with all antenna parameters. Every RET device is factory configured and calibrated so the antenna is ready to be used once delivered to the site which means that there is no need for further installation of RET devices or for programming their configuration or for running a calibration process.

#### RET-READY ACTUATORS

Multi-Device Control Unit (MDCU). The MDCU is an electronic module that allows the remote control of the electrical downtilt (RET) in Amphenol antennas with factory embedded motors. The MDCU is factory installed. Refer to the ORDERING OPTIONS for availability with this model

Multi-Device Dual Unit (MDDU). The MDDU allows two separate RET Controllers to independently drive the RETs in antennas with factory embedded motors (for antenna sharing or two technologies). The MDDU is factory installed. Refer to the ORDERING OPTIONS for availability with this model.

| Number of RET-READY          | Actuators | One per antenna  |  |  |  |
|------------------------------|-----------|--|--|--|--|
| Input Voltage                |           | +10 to +30 V   |  |  |  |
| Power Consumption Idle State |           | 0.5 W  |  |  |  |
|                              | Operating | 4 W typical / 10 W maximum   |  |  |  |
| Protocol                     |           | 3GPP/AISG 2.0  |  |  |  |
| Tilt Change Duration         |           | Less than 15 seconds, typical (may vary dependent on antenna type and outdoor temperature) |  |  |  |
| Precision                    |           | ±0.5°  |  |  |  |
| Tilt Change Capability       |           | 50,000 minimum   |  |  |  |
| RET Interface                |           | 1 pair of AISG Male and Female (type IEC60130-9)   |  |  |  |
| Field Replaceable Unit       |           | Yes  |  |  |  |
|                              |           |  |  |  |  |

## ACCESSORIES All accessories are ordered separately unless otherwise indicated

| ITEM  | MODEL NUMBER | WEIGHT           |
|---|--------------|------------------|
| Brackets for pole Ø48 to Ø115 mm (Ø1.9 to Ø4.5 in) <i>delivered as standard</i> | 0900181/00   | 3.4 kg (7.5 lbs) |
| Brackets for pole Ø70 to Ø150 mm (Ø2.8-Ø5.9 in) <i>optional</i>                 | 0900182/00   | 3.9 kg (8.6 lbs) |
| Kit to add mechanical tilt (0° to 10°) to above brackets <i>optional</i>        | 0900397/00   | 3.0 kg (6.6 lbs) |

## **INSTALLATION** Please read all installation notes before installing this product.

Always attach the antenna by all mounting points.

Do not install the antenna with the connectors facing upwards.
